

ATM usage fee and ATM network expansion

Direct charging for ATM usage has been introduced across Australia to let you know upfront how much you may be charged by the ATM owner for making an ATM transaction.

Any fee free or allowable ATM transactions and ATM fees permissible under FirstMac home loan agreements (including balance enquiries¹) are applicable when using our expanded CueCard ATM network including Westpac, BankSA and St.George² ATMs, or any ATM that displays the CueCard logo as a domestic partner (refer below).

Should you use any other brand of ATM you will be charged a fee, which will be displayed on screen. You can choose to pay the fee by continuing with the transaction, or to cancel the transaction.

For more information on this industry change please visit www.apca.com.au or www.rba.gov.au.

¹ Please note a balance enquiry is treated as an ATM transaction and counts towards any fee free or allowable transactions under your loan agreement.

² Excludes St.George ATMs located at BP service stations.
